Business tourists want to maximize the limited time they have to experience the amazing sites of Israel

Their professional tour guide must offer the highest level of service, constantly sensitive to safety and security

With an executive background, native English and a passion for creating engaging experiences, I provide the perfect tour guide services for your business guests

Marc Coles, Professional Tour Guide

For over 25 years, I worked in senior management positions for Israeli companies and have decades of experience hosting foreign business guests.

My tours are planned to showcase the best our country has to offer – intriguing places, amazing people, fantastic restaurants and more.

It's also a great learning experience - history, archaeology, geopolitics, religion, geology and a taste of Israel's dynamic business environment – all combine to create a highly memorable visit.

I offer business tourists in Israel the following services:

- arranging transportation and hotel accommodations
- flexible walking & driving tours
- a variety of fascinating itineraries
- convenient availability including Fridays and Saturdays
- customized specialty tours
- half-day tours
